

2024 ENROLMENT NOW OPEN

Prepare is a Pre-Prep school readiness program with the ultimate goal of teaching social and academic skills needed to ensure a positive and well-planned transition into Prep. With over 100 students previously enrolled, the growth seen over the Program is amazing! The Program liaises with the school and teacher to establish an individual learning plan and goals.

The main goal of the Prepare Program is to provide opportunities for children that require additional social and academic support to develop them into confident, competent learners. Additionally, the program provides essential skills across all student learning environments (kinder, childcare, recreational activities and even with family members). The final and most important part of the program is to ensure a comprehensive transition to their mainstream school.

In 2024, Prepare will be running 3 times a week* (Monday, Tuesday, and Friday (9am-3pm) each term. Orientation will be held in January for new students

*Actual days running is dependent on enrolments
